While most travelers tend to think of Greece as a summer island destination, there are treasured places across the country that make it a fantastic place to visit at any time. That's especially true in 2024, as [a number of new and renovated hotels and resorts](#) open their doors in advance of high season, offering visitors more ways than ever to explore the country's diverse landscapes and cultural offerings.

While you should keep these hotel openings on your radar, there's an overwhelming variety of superb existing accommodations to choose from, from whitewashed boutique hotels on the beach to urban bolt holes. For our [Hotels We Love](#) installment dedicated to Greece, we've selected our favorite retreats, many away from the country's overtouristed areas, that are worth booking on your next Greek odyssey.

# The Wild by Interni

- **Location:** Mykonos
- **Why we love it:** A quieter, less blingy Mykonos experience
- **Book now**

Located on the quieter side of party-hard Mykonos, but only 20 minutes from Mykonos Town, **the Wild** portrays a different character of the island in a spot where hardy fishermen used to keep their boats. Today, the 40 rooms, suites, and villas embrace a rustic-chic Cycladic style, all rough stone, bare wood, and whitewashed plaster. Yet, this being Mykonos, it still retains a sense of style in its carefully curated interiors, clifftop infinity pool, and secluded beach sheltered from the island's notoriously strong summer winds. Dining ranges from classic taverna dishes to Greek Japanese cuisine, and a new traditional *trata* fishing boat launching this summer will offer dusk and dawn sails. *From \$390*
